

ODM-009 — Interpretation

Status: Foundational

Authority: Methodology

Depends on:

- ODM-000 through ODM-008
 - OCS-000 through OCS-032
 - OAS-000 through OAS-031
 - OIS-000 through OIS-019
 - OGD-000 through OGD-023
-

Purpose

This specification defines the constitutional role of Interpretation within the Organodynamics Discovery Methodology.

Investigation produces evidence.

Interpretation assigns meaning to that evidence.

These are distinct methodological activities.

Interpretation SHALL remain explicitly documented so that reasoning may be independently examined, challenged, reproduced, and improved.

Meaning SHALL emerge from disciplined reasoning.

It SHALL not be attributed implicitly.

1. Objective

The objective of Interpretation is to construct transparent explanatory meaning from investigative evidence while preserving clear separation between observation, evidence, inference, and constitutional judgment.

Interpretation SHALL preserve:

Reasoning transparency.

Evidence traceability.

Methodological accountability.

Alternative viewpoints.

Historical continuity.

2. Definition

Interpretation is the methodological process through which investigative evidence is analyzed in relation to the associated Hypothesis, Evaluation Criteria, and Problem Frame.

Interpretation SHALL explain:

What the evidence suggests.

What it does not establish.

Which uncertainties remain.

How alternative interpretations were considered.

Interpretation SHALL remain explicitly reasoned.

3. Inputs

Interpretation SHALL identify:

Applicable Investigations.

Relevant evidence.

Evaluation Criteria.

Associated Hypotheses.

Problem Frames.

Alternative Explanations.

Applicable constitutional concepts.

Inputs SHALL remain traceable.

4. Reasoning

Interpretation SHALL preserve explicit reasoning.

Reasoning MAY include:

Logical inference.

Comparative analysis.

Architectural reasoning.

Statistical reasoning.

Formal proof.

Historical reasoning.

Cross-disciplinary reasoning.

Reasoning SHALL remain reviewable.

5. Uncertainty

Interpretation SHALL explicitly distinguish between:

Supported conclusions.

Tentative conclusions.

Competing interpretations.

Unresolved questions.

Known limitations.

Uncertainty SHALL remain visible.

6. Relationship to Constitutional Knowledge

Interpretation SHALL NOT modify the constitutional corpus.

Interpretation MAY motivate:

Refined hypotheses.

Additional investigations.

Methodological revision.

Constitutional proposals.

Interpretation remains methodological.

Constitutional adoption requires subsequent governance.

7. Historical Preservation

Every Interpretation SHALL preserve:

Reasoning process.

Alternative interpretations considered.

Applicable evidence.

Known uncertainties.

Subsequent revisions.

Historical continuity.

8. Verification

Verification SHALL demonstrate:

Reasoning transparency.

Evidence consistency.

Interpretive traceability.

Methodological coherence.

Independent reproducibility.

Interpretation SHALL remain independently reviewable.

9. Interpretation Test

Interpretation satisfies this specification when independent reviewers consistently reconstruct substantially equivalent reasoning from the same documented evidence while remaining able to identify the assumptions, uncertainties, and alternative interpretations considered during the analysis.

Conformance

An Interpretation conforms to this specification when it explicitly documents its reasoning, preserves evidence traceability, distinguishes uncertainty from conclusion, maintains historical continuity, and remains independently reviewable and reproducible.

Methodological Principle

Evidence does not speak.

People speak about evidence.

The discipline therefore preserves interpretation as a first-class methodological artifact,

ensuring that every conclusion remains connected to the reasoning that produced it,

and that future generations may examine not only what was believed,

but why it was believed,

and where uncertainty still remained.
