

# ODM-020 — Managed Uncertainty

**Status:** Foundational

**Authority:** Methodology

**Depends on:**

- ODM-000 through ODM-019
  - OCS-000 through OCS-032
  - OAS-000 through OAS-031
  - OIS-000 through OIS-019
  - OGD-000 through OGD-023
- 

## Purpose

This specification defines the constitutional principles governing managed uncertainty within the Organodynamics Discovery Methodology.

The purpose of inquiry is not to eliminate uncertainty.

It is to transform unknown uncertainty into explicit, documented, and governable uncertainty.

Uncertainty that is recognized becomes part of constitutional understanding.

Uncertainty that remains invisible becomes methodological risk.

Managed Uncertainty SHALL preserve the boundaries of current knowledge.

It SHALL not conceal them.

---

## 1. Objective

The objective of Managed Uncertainty is to ensure that every investigation explicitly records what remains unknown, unresolved, or insufficiently understood.

Managed Uncertainty SHALL preserve:

Intellectual honesty.

Research continuity.

Methodological transparency.

Future discoverability.

Historical accountability.

---

## 2. Definition

Managed Uncertainty is the constitutional practice of documenting unresolved questions, competing interpretations, evidential limitations, and identified knowledge gaps alongside established understanding.

Uncertainty SHALL be represented as knowledge about the current limits of knowledge.

---

## 3. Categories of Uncertainty

Managed Uncertainty MAY include:

Unresolved observations.

Competing hypotheses.

Insufficient evidence.

Conflicting evidence.

Methodological limitations.

Conceptual ambiguity.

Open research questions.

Expressive gaps.

Each category SHALL remain explicitly distinguishable.

---

## 4. Uncertainty Record

Every uncertainty record SHALL preserve:

The associated Problem Frame.

Related Observations.

Relevant Investigations.

Current supporting evidence.

Reasons for uncertainty.

Potential approaches for future investigation.

Known dependencies.

The record SHALL remain historically attributable.

---

## **5. Relationship to Constitutional Knowledge**

Managed Uncertainty SHALL coexist with accepted constitutional knowledge.

An unresolved question SHALL NOT invalidate established constitutional understanding unless constitutional review determines otherwise.

Likewise, accepted knowledge SHALL NOT erase documented uncertainty that remains outside its demonstrated scope.

---

## **6. Portfolio Integration**

Managed Uncertainty SHALL remain visible within the Discovery Portfolio.

The portfolio SHOULD support identification of:

Persistent uncertainties.

Emerging uncertainties.

Resolved uncertainties.

Relationships among unresolved questions.

Knowledge frontiers.

The frontier of inquiry SHALL remain observable.

---

## 7. Verification

Verification SHALL demonstrate:

Explicit documentation.

Traceability.

Historical continuity.

Relationship integrity.

Independent reproducibility.

Uncertainty management SHALL remain explainable.

---

## 8. Managed Uncertainty Test

Managed Uncertainty satisfies this specification when independent reviewers consistently identify substantially the same unresolved questions, evidential limitations, and knowledge gaps from the documented methodological record while distinguishing them from established constitutional understanding.

---

## 9. Conformance

The Discovery Methodology conforms to this specification when it preserves explicit records of unresolved uncertainty, maintains historical traceability, integrates uncertainty into the Discovery Portfolio, and supports future investigation without compromising constitutional clarity.

---

## Methodological Principle

The boundary between what is known and what remains unknown is itself one of the most valuable forms of knowledge.

Organodynamics therefore preserves uncertainty as a constitutional artifact,

not because uncertainty is desirable,

but because a discipline that remembers the limits of its understanding is better prepared to expand them.

The map of unanswered questions is part of the map of knowledge.

---
