

OGD-004 — Canonical Terminology Governance

Status: Foundational

Authority: Terminology

Depends on:

- OGD-000
 - OGD-001
 - OGD-002
 - OGD-003
 - OCS-000 through OCS-032
 - OAS-000 through OAS-031
 - OIS-000 through OIS-019
-

Purpose

This specification defines the constitutional governance of canonical terminology.

Canonical terminology is a constitutional asset of the discipline.

New terms SHALL not emerge through habit, popularity, or convenience.

They SHALL emerge through demonstrated constitutional necessity.

Terminological governance SHALL preserve the long-term semantic integrity of the Organodynamics corpus.

1. Objective

The objective of Terminology Governance is to ensure that every canonical term contributes to constitutional understanding while minimizing semantic ambiguity and unnecessary vocabulary growth.

Language SHALL evolve.

Vocabulary inflation SHALL not.

2. Canonical Admission

A proposed canonical term SHALL demonstrate:

Constitutional necessity.

Semantic uniqueness.

Architectural relevance.

Long-term usefulness.

Compatibility with existing terminology.

Failure to demonstrate necessity SHALL prevent canonical admission.

3. Canonical Review

Every proposed term SHALL undergo constitutional review.

Review SHALL evaluate:

Definition.

Relationships.

Existing alternatives.

Historical context.

Potential ambiguity.

Review SHALL preserve terminological consistency.

4. Canonical Acceptance

A term SHALL become canonical only after:

Successful constitutional review.

Approval through the applicable methodological process.

Assignment of a canonical identifier.

Registration within the Organodynamics Glossary.

Acceptance SHALL become constitutional history.

5. Canonical Revision

Existing canonical terms MAY evolve.

Revision SHALL preserve:

Historical definitions.

Reasons for revision.

Specification compatibility.

Terminological lineage.

Canonical identity SHALL remain stable.

6. Canonical Deprecation

Canonical terms MAY be deprecated.

Deprecation SHALL preserve:

Historical usage.

Replacement guidance.

Specification references.

Backward interpretability.

Deprecated terminology SHALL remain permanently accessible.

7. Semantic Integrity

Governance SHALL preserve:

Definition stability.

Relationship integrity.

Cross-specification consistency.

Machine interpretability.

Human interpretability.

Semantic integrity SHALL take precedence over convenience.

8. Verification

Verification SHALL demonstrate:

Canonical uniqueness.

Definition consistency.

Reference correctness.

Terminological traceability.

Historical continuity.

Governance SHALL remain auditable.

9. Governance Test

Terminology Governance satisfies this specification when independent reviewers consistently reach equivalent conclusions regarding the admission, revision, deprecation, and interpretation of canonical terminology using only the Organodynamics corpus.

Conformance

The Organodynamics Glossary conforms to this specification when every canonical term possesses demonstrable constitutional necessity, stable governance, explicit lineage, semantic integrity, and independently verifiable historical traceability.

Terminological Principle

Disciplines do not become precise because they contain many words.

They become precise because every word has earned the right to exist.

The purpose of Terminology Governance is therefore not to protect vocabulary,

but to protect understanding from slowly dissolving into ambiguity.

Every canonical term is a promise to future generations

that the language of the discipline will remain as carefully stewarded as the discipline itself.
