

OGD-022 — Interpretive Equivalence

Status: Foundational

Authority: Terminology

Depends on:

- OGD-000 through OGD-021
- OCS-000 through OCS-032
- OAS-000 through OAS-031
- OIS-000 through OIS-019

Purpose

This specification defines the constitutional principles governing interpretive equivalence throughout the Organodynamics corpus.

Independent readers are not expected to produce identical explanations.

They are expected to preserve equivalent constitutional understanding.

Interpretive Equivalence distinguishes acceptable diversity of interpretation from semantic divergence.

Interpretation MAY vary.

Canonical meaning SHALL not.

1. Objective

The objective of Interpretive Equivalence is to ensure that independent readers, educators, engineers, researchers, and intelligent systems consistently reconstruct equivalent constitutional understanding from the Organodynamics corpus.

Interpretation SHALL preserve:

Canonical meaning.

Constitutional intent.

Semantic integrity.

Historical continuity.

Normative compatibility.

2. Definition

Interpretive Equivalence is the demonstrated condition in which different representations, explanations, or mental models preserve the same constitutional meaning despite differences in wording, style, or presentation.

Equivalent interpretation SHALL preserve meaning.

It need not preserve expression.

3. Sources of Interpretive Variation

Variation MAY arise from:

Human language.

Educational approach.

Professional background.

Implementation perspective.

Cultural context.

Analytical methodology.

Variation SHALL remain constitutionally bounded.

4. Criteria for Equivalence

Two interpretations SHALL be considered constitutionally equivalent when they preserve:

Canonical definitions.

Concept boundaries.

Semantic relationships.

Applicable contexts.

Normative consequences.

Historical applicability.

Equivalent conclusions SHALL arise from equivalent constitutional reasoning.

5. Non-Equivalent Interpretation

Interpretation SHALL NOT be considered equivalent when it:

Redefines canonical meaning.

Violates concept boundaries.

Contradicts constitutional specifications.

Introduces unsupported normative consequences.

Confuses contextual application with canonical definition.

Such interpretation SHALL require constitutional review.

6. Educational Diversity

Educational materials MAY employ diverse explanatory styles.

Every educational representation SHALL preserve interpretive equivalence with the canonical terminology.

Pedagogical freedom SHALL not create constitutional divergence.

7. Machine Interpretation

Machine-assisted interpretation SHOULD preserve interpretive equivalence.

Machine systems SHALL preserve:

Canonical identifiers.

Semantic relationships.

Contextual semantics.

Applicable specifications.

Machines MAY explain differently.

They SHALL not alter constitutional meaning.

8. Verification

Verification SHALL demonstrate:

Semantic preservation.

Equivalent reasoning.

Context compatibility.

Reference correctness.

Historical continuity.

Independent reproducibility.

Interpretive equivalence SHALL remain explainable.

9. Interpretive Equivalence Test

Interpretive Equivalence satisfies this specification when independent readers, educators, implementers, translators, and automated systems consistently derive equivalent constitutional understanding from the same canonical concepts despite differences in language, presentation, analytical method, or educational approach.

Conformance

The Organodynamics corpus conforms to this specification when its canonical language enables independently developed interpretations that preserve constitutional meaning, semantic integrity, contextual correctness, historical continuity, and normative compatibility.

Terminological Principle

A living discipline does not require every mind to think identically.

It requires every mind to preserve the same constitutional meaning.

Interpretive Equivalence therefore protects diversity of explanation,

while preventing diversity of meaning.

It allows understanding to expand,

without allowing the Constitution to fragment.
